Front-End web developer with a strong background in React Development. As a former ship captain, I bring 3+ years of experience in managing teams and communicating under stressful conditions. As an improv theater player, I can create a positive impact in the projects with my creativity and high energy. The passion I have for technology and art made me transition my career into coding. I am dedicating myself to creating beautiful and engaging web apps.

## TECHNICAL SKILLS

**Programming:** HTML, CSS, JavaScript, React, Python, Object-Oriented/Functional Programming.

**Workflow:** Agile/Scrum, Gitflow, Git. **Design:** Figma, Ant Design, Bootstrap. **Other:** Firebase, Jest, Blockchain, i18Next.

## TECHNICAL PROJECTS

**It's On Us** - [GitHub](#) | [Demo](#)

*A platform on which donors can donate food coupons to people in need from the chosen restaurants.*

- + Worked within a team using Gitflow/Git and Agile/Scrum methodology.
- + Wrote snapshot tests with Jest for React components. Setup Google Firebase for the database.
- + Programmed the local storage to persistently store the data of cart items
- + Translated the site to 3 languages (English, Arabic, and Turkish) with i18Next.
- + Deployed React/Ant Design to build the UI, initially designed in Figma

**Travel Bucket-** [GitHub](#) | [Demo](#)

*A board where users can add travel wishes with additional data.*

- + Implemented Google Firebase to store data. Used React for Front-end development.
- + Modelled data to create, read, update, and delete operations in selected items.
- + Designed with MDBootstrap to use Google Material design system.

**Movie Heaven** - [GitHub](#) | [Demo](#)

*Movie Heaven shows a range of movies, with their casts, ratings, trailers, and genre.*

- + Coded with JavaScript/HTML/CSS and Object-Oriented/Functional programming to achieve code reusability.
- + Scraped requisite data from MovieDB API to show movies on the pages.
- + Adopted Bootstrap CSS framework to make the page responsive.

## EMPLOYMENT HISTORY

**Yenal/Torlak Maritime**, Chemical Tanker and Dry Bulk Cargo ships on international waters

Ship captain (Oceangoing Watchkeeping Officer), 2014 - 2017

- + Ensured the safe operation as Second Mate of the ship and provided a link between the Company and those on board
- + Implemented and upheld the safety and environmental protection policies of the Company, motivating the crew in the observation of those policies; communicated appropriate orders and instructions clearly and simply.

## EDUCATION

**Re:Coded Bootcamp** ([Re:Coded](#) + [Flatiron School](#)) - 2020

- + Front End Web Development (HTML, CSS, JavaScript, React)
- + 5-month intense web development program run by Re:Coded with Flatiron School's curriculum.

**Udacity Nanodegree** ([Udacity](#)) - 2019

- + Introduction to Programming for 4-month intensive web development program (HTML, CSS, JavaScript, Python)

**Anadolu University Open Education** - Turkey - 2015

- + Bachelor of Science: Business Management

## LANGUAGES

English (Fluent), Turkish (Native)
