[GitHub](#) | [Blog](#) | [Personal website](#) | [Linkedin](#)

Front-End web developer with a passion for creating beautiful and engaging websites. As an ex-ship captain, I have great experience in team management and leadership. I discovered coding while I was looking for solutions to decrease paperwork in ships. I can create a positive impact in the projects with my creativity and high energy.

## TECHNICAL PROJECTS

### It's on Us - [GitHub](#) | [Demo](#)

*It's on us is a platform in which donors can donate food coupons to people in need from the chosen restaurants.*

- + Worked with Gitflow workflow and Scrum methodology.
- + Prepared programming of local storage to store the data of cart items and make it persistent
